Report of the Activity

Title	"The Vulture Awareness Programme"
Day & Date	Saturday, 6 th September, 2025
Organizer	Department of Zoology
Chief Guest	Dr. Reshma A Sanadi, Head, Department of Zoology
Co- Ordinators	Mr. Shivam P Jaganade, Asst. Prof.
President	Prof. (Dr.) M. K. Patil, Principal P.V.P. Mahavidyalaya Kavathe Mahankal
Background	The Vulture Awareness Programme is intended to raise awareness around the most imperiled group of birds in the world, all while celebrating their importance within our ecosystems. Vultures have an unfairly bad reputation. Associated with death and greed, many believe vultures to be cruel, dirty, and ugly creatures.
Objectives	- To Create Awareness about the Vultures and their role in the ecosystem - Encourage students to apply conservation strategies for the conservation of the vulture species
Conclusions	Total 31 Students were Participated in this Programme. This Programme was helpful for the students and also for the society to know the importance of Vultures in the ecosystem. Awareness programmes are important for the Conservation of the endangered species and by this programme the fear about the vulture can be vanished and a Scientific and ecological approach towards the animal can be established.

Report of the Activity

The Vulture Awareness Programme was organized by Department of Zoology, Padmabhushan Vasantryadada Patil Mahavidyalaya, Kavathe Mahankal On 6th September, 2025 as a Departmental Activity. This Programme is celebrated to highlight the critical role of vultures in ecosystems and advocate for their conservation.

Inagural Speech was given by Dr. Reshma Sanadi, Head, Department of Zoology. She told that, Vulture Day, more formally known as International Vulture Awareness Day (IVAD), is celebrated annually on the first Saturday of September to highlight the critical role of vultures in ecosystems and advocate for their conservation. These often-misunderstood birds are vital for cleaning up carcasses, preventing disease spread, and maintaining environmental balance, but many species are facing extinction due to threats like poisoning, habitat loss, and electrocution. Often misunderstood, vultures are the silent sentinels of our natural world. These remarkable creatures are nature's cleaners, ecosystem guardians, flying giants, and devoted parents. Vultures are among the most important, yet tragically misunderstood and underappreciated birds on our planet. Mr. Shivam Jaganade, Asst. Professor Department of Zoology Shared their thoughts about The Threats of the Vulture species. Finally Miss. Vidya Patil Gives Vote of Thanks and The programme ended.
