Report of the Activity

On the occasion of Mendel's birth anniversary the Department of zoology organized celebration of Mendel's day on 21st July, 2025. Dr. Reshma A. Sanadi, Assistant professor, and Head Department of Zoology was co-ordinator of programme. She delivered very nice guidance to our students about Mendel's study of garden peas and hereditary understand how the inheritance of a genotype generates a phenotype, the law of segregation; apply the law of independent assortment. This event aimed to provide a platform for participants to explore the origins of genetics and reflect on Mendel's legacy and to educating the public about the need to protect and preserve the environment as a long range goal for the welfare of future generations.

Total 67 students were participated in the present event. The celebration of Mendel's Day proved to be a successful endeavour, achieving its objectives of encouraging research, fostering critical thinking skills, and providing a platform for showcasing talent in the field. It served as a valuable opportunity for participants to enhance their knowledge.
