**APPRECIATION LETTER**

As per the Memorandum of Understanding between Society for Environment and Biodiversity Conservation (SEBC), Pune and Padmabhushan Vasantrodada Patil Mahavidyalay, Kavathe Mahankal, students and staff of Botany Department has actively participated in Field Based activities viz, remote forest village visit, medicinal plants survey analysis, ethno-botany, biodiversity and ecology study in Dajipur Wildlife Sanctuary, A UNESCO World Heritage Site during 29<sup>th</sup> to 31<sup>st</sup> January, 2024. Their efforts for understanding regional flora and unique nature if highly appreciated.

Dr. Shrinath Kavade  
President, SEBC, PUNE

## Report of the Activity

**Activity Name - Field Botany and Ecology Course**

**Date-29<sup>th</sup> to 31<sup>st</sup> January 2024**

As per the Memorandum of Understanding between Society for Environment and Biodiversity Conservation (SEBC), Pune and Padmabhushan Vasantodada Patil Mahavidyalaya, Kavathe Mahankal, B.Sc.III students and staff of Department of Botany has actively participated in Field Based activities viz, remote forest village visit, medicinal plants survey analysis, ethno-botany, biodiversity and ecology study in Dajipur Wildlife Sanctuary, A UNESCO World Heritage Site during 29<sup>th</sup> to 31<sup>st</sup> January, 2024.

A field botany and ecology course sounds like a fantastic opportunity for students to explore the natural world, such a course would typically cover topics such as: plant identification and classification, ecological principles and concepts field techniques for sampling and data collection, vegetation survey and assessment methods, plant community ecology and dynamics, interactions between plants and their environment conservation biology and management applications.

During this activity we conducted different activities for students to make interest in this field. On the first day we went for Jungle Safari. During Jungle Safari students get knowledge about wildlife and their conservation. After Jungle Safari at evening we organise a movie screening in which students seen the wildlife related videos and movies. On the second day morning there is yoga and meditation practices, which gives healthcare values to students. After breakfast we went for trekking in Dajipur Wildlife Sanctuary. At the time of trekking students get knowledge about identification of plants; RET listed plants and importance of their conservation. At the night of second day night the group discussion organised by NGO members and students interacted with NGO members and local peoples. On the third day we visited to sacred groove, in which local people communicate to the students give the knowledge about plant related tradition and culture.
